<b>Start Fast, Quickly Advance</b>		
Model Building Assistants	✓	✓
Example Models	✓	✓
Model Setup Wizard	✓	✓
Markov Model Wizard		✓
Legal Model Wizard	✓	
<b>Visual Design, No Coding Knowledge Required</b>		
Build Pathways in a Visual Model Editor	✓	✓
Add Model Inputs Directly Into Pathways; No Coding Required	✓	✓
<b>Model Types</b>		
Decision Trees	✓	✓
Markov Models		✓
Markov Plot		✓
State Transition Diagrams		✓
Partitioned Survival Analysis		✓
Patient Simulation (Microsimulation)		✓
Discrete Event Simulation		✓
<b>Built-In Analyses and Reporting</b>		
Decision Analysis	✓	✓
Cost-Effectiveness Analysis		✓
Analysis Output Dashboards	✓	✓
Detailed Markov Cohort Reporting to track patient flows		✓
Sensitivity Analysis (1-way, 2-way, Tornado)	✓	✓
Probabilistic Sensitivity Analysis (Acceptability Curve, ICE Scatterplot, etc.)	✓	✓
Budget Impact Analysis	✓	✓
Price Threshold Analysis	✓	✓
<b>Advanced Techniques</b>		
Calibration	✓	✓
Modeling with Hazards		✓
Tunnels to track Time-in-State		✓
Wizard to setup PSA	✓	✓
Prediction Intervals/Simulation Batches	✓	✓
<b>Transparency</b>		
Detailed Markov Trace Report		✓
Patient Tracking Reports for Simulations		✓
Model Dashboard	✓	✓
Console to Review Model Calculations	✓	✓
Model Search Tool	✓	✓
<b>Model Sharing</b>		
Share Models Over the Web	✓	✓
Markov To Excel Conversion		✓
Scenario Export to Excel		✓
Export Model Results to PDF	✓	
Export to Player Model		✓
